Summary

Full Stack Engineer with 2.5+ years of experience designing and scaling modern web applications, high-throughput microservices, and real-time interactive systems. Proficient across **React.js, Next.js, TypeScript, Node.js, Python, FastAPI, PostgreSQL, Redis, and AWS**, with a demonstrated track record of cutting API latency by **60%**, architecting reactive event pipelines, and shipping production-ready cloud applications.

Technical Skills

Frontend Engineering: React.js, Next.js, TypeScript, JavaScript, Redux Toolkit, Tailwind CSS, HTML5, CSS3, Responsive Design

Languages & Backend: Node.js, Express.js, NestJS, Python, FastAPI, SQL, AsyncIO, REST APIs, Microservices, WebSockets, MQTT

Databases & Caching: PostgreSQL, MongoDB, Redis, pgvector, B-tree/Compound Indexing, Connection Pooling

Cloud & DevOps: AWS (EC2, S3), Docker, GitHub Actions CI/CD, Nginx, Linux, Vercel

Testing & Tooling: Jest, React Testing Library, Postman (API Testing), Git, Webpack, Vite

AI & Search Integration: Vector Search (Qdrant, pgvector), Hybrid Retrieval, Semantic Caching, LLM API Integration (Gemini, OpenAI)

Experience

Full Stack Engineer – SahioNext Technology Pvt. Ltd.

Oct 2025 – Apr 2026

Remote

- Architected end-to-end full-stack audio analysis platform using **FastAPI, React.js, and PostgreSQL**, decoupling asynchronous processing workloads via **Redis queues and background workers**.
- Implemented operational telemetry dashboards in **React.js and Redux** tracking token consumption, API quotas, and pipeline stages, reducing issue triage and debugging time from hours to minutes.
- Engineered full-duplex **WebSocket and MQTT** ingestion pipelines with **exponential backoff, dead-letter queues (DLQ), and automatic session recovery**, maintaining resilient real-time streaming across high-latency clients.
- Integrated high-performance semantic search endpoints in **Qdrant** (⌵300ms p95 latency) into user-facing review workflows, enabling rapid CEFR language proficiency grading and assessment.

Full Stack Developer (Contract) – PearlThoughts

Feb 2025 – Sep 2025

Remote

- Engineered multi-tenant backend automation microservices using **NestJS, TypeScript, and Google Workspace APIs**, orchestrating **1,000+ daily business workflows** and eliminating manual client data-entry bottlenecks.
- Built distributed workflow pipelines with **exponential backoff, idempotent webhook handlers, and rate limiting**, guaranteeing resilient job execution and preventing duplicate transaction processing across tenants.
- Developed automated verification harnesses and isolated **Docker autograder environments** for enterprise **Coursera course launches**, eliminating student code-execution regressions prior to production rollout.

Full Stack Developer – The DevOps Team

Oct 2023 – Jan 2025

Bangalore, India

- Optimized high-traffic **Node.js and Express.js APIs** using **Redis response caching, PostgreSQL B-tree indexing, and connection pooling**, reducing median response time from **800ms to 320ms (60% drop)**.
- Developed candidate-job recommendation workflows utilizing multi-attribute compound indexing in **PostgreSQL**, cutting search filter latency and improving relevant role matching accuracy by **22%**.
- Built **React.js and Next.js** onboarding experiences with integrated **A/B testing**, lifting user signup conversion rates by **18%**.

Projects

WorkBridge – Full-Stack Project Collaboration Platform

May 2026 – Present

React.js, Next.js, Node.js, Express.js, Python, FastAPI, PostgreSQL, pgvector, Redis, OAuth | Live Project

- Architected a decoupled microservices platform featuring a **Node.js/Express API gateway** for session/auth handling and a **Python/FastAPI microservice** for vector processing.
- Built core REST APIs with **PostgreSQL and Redis**, enforcing role-based access control (RBAC) and OAuth2 authentication to achieve **⌵150ms p95 latency** in benchmark tests.

- Developed dynamic client-side interfaces in **React.js** and **Next.js** featuring responsive project boards, profile matching filters, and real-time interaction feeds.

Certifications

Oracle Agentic AI Certified Foundations Associate – Oracle	Aug 2026
Oracle AI Vector Search Certified Professional – Oracle	Sep 2025
Machine Learning I – Columbia University	Aug 2025
Oracle Cloud Infrastructure 2024 Generative AI Certified Professional – Oracle	Aug 2024

Education

Adichunchanagiri Institute of Technology (VTU)	Chikkamagaluru, KA, India
Bachelor of Engineering in Mechanical Engineering	Aug 2023
